

ENKOveyor: Stand-Alone Belt Conveyor CB03

The ENKOTEC stand-alone belt conveyor, type CB03, is used for the transportation of nails from a nail producing machine to a box or bin. The transport unit is flexible and highly adjustable to customer specific nail boxes or bins.

ENKOTEC Advantages:

- Increased OEE by running a full bin without accumulation.
- A stand-alone solution.
- Easy, simple, and cost-efficient solution.
- Very flexible and movable nail transport solution.

Technical Specifications	
Motor	Drum motor 85 W, 400 V±10%@50 Hz or 460V±10%@60 Hz
Conveyor Speed	0,18 m/sec., capacity up to 20 kg/min.
Conveyor Belt	C-C 1500 mm, 280 mm wide high friction temperature resistant endless belt
Dimensions	Max bin height 1000 mm, conveyor adjustable 0-32° up
Noise Level	Less than 70 dB(A)
Weight	70 kg/172 lbs
